BEFORE STARTING YOUR DESIGN...

Review our artwork requirements:

info.roastar.com/setupguide-gusset

Add a disposal logo to your design to assist with proper disposal of this package:

info.roastar.com/notyet

Eyemark

This graphic is printed on the artwork to ensure accurate alignment and cutting during the manufacturing process.

SIDE

Trim

Where the bag will be cut to its final size.

Cut Tolerance

There can be a slight variation in where the bag is cut due to our tolerance of movement throughout the production run.

Fold

Where the bag will fold.

Fold Tolerance

To accommodate slight variations in where the bag folds, please extend any front or back panel color or graphics onto the side panels by 1/16".

Safe Area

Important text and graphics must remain inside the green lines to avoid being trimmed or folded.

Heat Seal

Where the edges are bonded together using heat and pressure to create an airtight and secure seal. You can extend color into this area but some color variation could occur.

FRONT

VALVE PLACEMENT IS RESTRICTED TO THIS PANEL ONLY.

2.5" VALVE POSITION

Bottom

Color and graphics can be printed below this line, but keep in mind that anything placed below it will be folded underneath the bag.

SIDE

THIS AREA GETS COVERED BY THE FIN SEAL
WE STILL RECOMMEND EXTENDING ANY COLOR OR BACKGROUND IMAGE FROM THE SIDE PANEL INTO THIS AREA
